

The three musketeers

How it works

All the red players have a ball each and must dribble around the playing area keeping control of their ball.

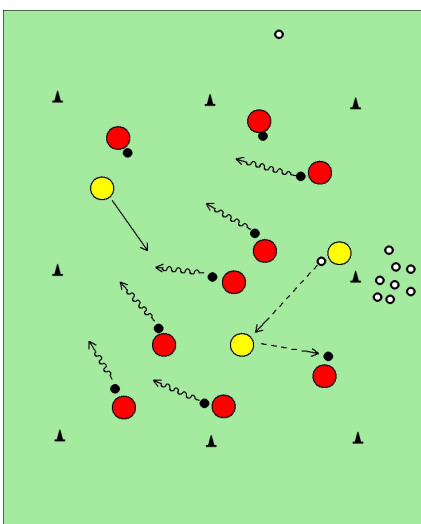

The yellow players (Three Musketeers) have a ball between them. They can dribble the ball or pass it between them.

The Three Musketeers have to try and kick their ball to hit another ball dribbled by a red player.

If successful that red player is out of the game and must stand outside the playing area.

If the ball misses the yellow players can either fetch that ball or get another from a supply at the side of the playing area.

As soon as a ball is back in play the yellow players can try to dribble and pass between them to hit another ball.

Can the Three Musketeers rescue the king by knocking out all the Cardinal's men? A time limit of 4/5 minutes could be set to add to the challenge.

Possible changes

Allow the red players to play a pass to those who have been knocked out around the side of the playing area. The ball must be passed back within 2/3 seconds.

Allow the Three Musketeers to have two balls in play at the same time.
