

Snatch

How it works

Each team moves around their own square dribbling and passing the ball between each other.

The coach shouts a number and that player must run quickly into the opposing team's square and try to win the ball.

Set a 20 second time limit for the Snatch to take place.

If the player knocks the ball out of the playing area they score one point but if the Snatcher manages to pass or dribble the ball back into their own team's square they get three points.

Play several rounds calling different numbers each time.

Possible changes

If you have a larger group then each team could have two balls to pass around in their square.

You could also call more than one number of players to go into opposing team's square to be Snatchers.
