

Crossfire

How it works

Player 1s pass the ball across the grid to Player 2s.

Player 1s then make a move to their right to join a new line.

Player 2s pass the ball back across the grid to Player 3s.

Challenge players to keep passing sequence going for 30 secs/1 minute without a collision of balls.

Possible changes

Players follow their pass across the grid to join the line at the opposite side of the grid.
