

Guardians of the cones 1

How it works

Get 3 of the players to wear a bib/pinny and be a Guardian of the Cones.

They do not tackle but just move around stopping players getting through the cone gates, making them turn away to go through another.

Red players just try to make 1 pass before moving to a different cone gate.

Possible changes

Allow the Guardians of the Cones to tackle and kick the players balls out of the area. Balls that are kicked out of the playing area can be retrieved and the player can continue dribbling through the cone gates.

How many cones can the red players dribble through altogether in 1 minute? (You will have to trust them to give a correct score as you add

them up).

Choose 3 different Guardians of the Cones and see if they can stop the red players beating the previous total.
