

One two passing

How it works

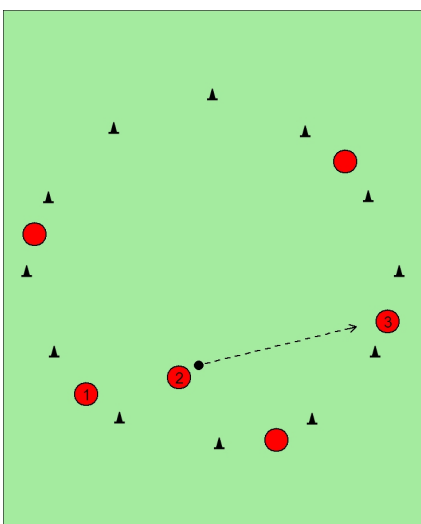

Players stand evenly spaced around the circle.

Player 1 starts by passing the ball to any other player in the circle, in this case Player 2.

Player 1 then follows the pass towards Player 2.

Player 2 has to control and pass back to Player 1 who then lays the ball off for Player 2 to pass

Player 2 then follows the pass to perform a one-two with Player 3.

Player 1 takes the place of Player 2 in the circle to be available for another pass.

Possible changes

First touch passes only.
